

Patient Stories (Videos): Pediatric Orthopaedics

- We are looking to enlist our patients to share short video stories or insights about their orthopaedic condition(s)!
- These will be posted on the *OrthoKids* website, through the Pediatric Orthopaedic Society of North America (POSNA). They can also be shared with social media platforms, including OrthoKids [Instagram](#), [Facebook](#), and [Twitter](#).
- The video topics include **ANY** pediatric orthopaedic condition. Some examples include hip dysplasia, osteogenesis imperfecta, perthes, scoliosis, skeletal dysplasia, fractures, clubfoot, SCFE, knock-knees or bowlegs, etc.
- We ask that you include in the video the following information:
 - Your name (specifically, the patient's name)
 - Your age
 - What diagnosis or condition you have
 - What treatments you have had for the condition
 - *Most importantly*, we ask that you share what **you would most want people to know** about your condition and/or the treatments you've had
- The video should be 30-60 seconds in length
- Please complete the [Release Form](#) prior to submitting the video
